ISOFLURANE

Isoflurane USP Liquid for Inhalation

ISOFLURANE

Isoflurane USP Liquid for Inhalation

The most advantageous anaesthetic agent for Neurosurgical patients¹

- Cerebral protective effect maximal at clinical concentrations has been demonstrated
- Causes little or no depression of myocardial function
- Has the least effect on Intra Cranial Pressure (ICP)
- Autoregulation remains effective at concentrations upto 1.5 MAC
- Cerebral perfusion pressure is maintained.
- Preserves CO₂ reactivity.

Ideal for maintenance in Cardiac Surgery

- Advantageous for patients with pre- existing cardiovascular disease.
- Cardiac output is generally unchanged at 1.0 MAC.
- Beneficial vasodilatory effects.
- Maintains cardiac rate, rhythm and output.
- Supports cardiac function in treatment of operative hypertension.

Available in 30ml,
100ml & 250ml
